Jack Stanton.

Give Garrison a Chance

SIR: Clayton Fritchey's "Garrison is conducting 'Trial by Publicity'" was too much.

Garrison isn't repeatedly postponing the trial; the defense is, obviously.

Garrison is not discrediting the United States overseas. Most Europeans I know actually appreciate his efforts. They, like us, are not quite convinced by the Warren Commission.

Garrison has raised some excellent questions: Why are the Archives closed to the American people? And, who does control the FBI and CIA — and Mr. Ramsey Clark?

How and why did Mr. Garrison's Army medical records become public information? That material is supposed to be kept confidential. Perhaps another "News Leak" by the government? How do we know it is even the truth?

Let's give Mr. Garrison a chance. If he is right, can we afford not to?

Robert J. Lee.
